#### The Apple Tree

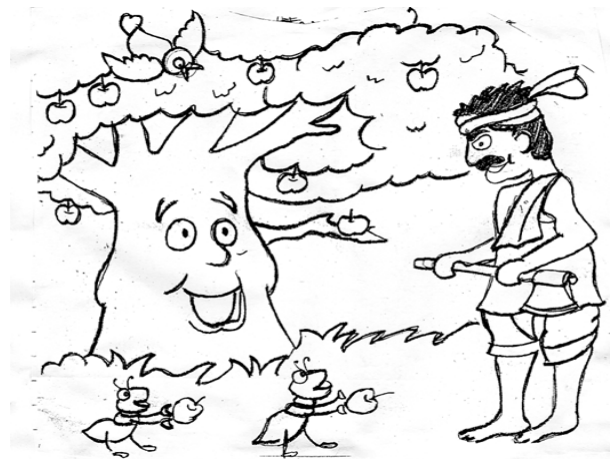

In the middle of a beautiful green forest, stood a big apple tree. In the branches of the tree, lived many birds and hundreds of ants with their young ones.

One day, a woodcutter came to the forest to cut the tree. He wanted to make tables and chairs with the wood.

The birds and the ants were very sad. They pleaded with the woodcutter. "Please do not cut the apple tree, we shall have no home".

The woodcutter decided not to cut the tree.

The birds and the ants were very happy. They thanked the kind woodcutter and asked him to take some apples home.
